SIR,

Subject - Formation of roads etc , in Swimming Pool layout, Malleswaram, Bangalore City

---

I have the honour to state that the tender of Messrs N Subbaiah and N Ramachandra Rao & Bros , for the work relating to the formation of roads etc , in Swimming Pool layout was approved by Government in their order No L 5455-7/Ml 10-46-51 dated 2-11-1946, the estimate thereof for Rs 55,277/- having also been sanctioned by Government in their order No L 7114-16/M 1 47-40-86 dated 5-4-1941

2 When the work order was issued to these contractors Sri N Ramachandra Rao Bros , declined to execute the work at the lowest rate tendered by Sri N Subbiah Therefore sanction for getting the work executed by the latter contractor as accorded in Government Order No L 14490-91/Ml 10-46-152 dated 21-4-1947 When the work was put on hand as usual and was in progress, the contractor is stated to have represented for enhanced rates on the plea that his tender was accepted after a period of 11 months by which time the rates for certain items rose high The Municipal Executive Engineer in his report No D P W 268/47-48 dated 10-5-1948 have recommended enhanced rate of 7 annas per sq foot for the total area of 60,150 sq yards of burnt stone slabs required for the entire work against 5 annas per sq foot tendered by this contractor

3 When the subject was placed before the Managing Committee and the Municipal Council, they have at their meetings held on 4-6-48 and 28-6-48 approved of the recommendation of the Municipal

P t o

Engineer for payment of an enhanced rate mentioned above Copies of the resolutions referred to herein and also of the Municipal Executive Engineer's report are sent herewith for reference

4 I request that early sanction of Government to the resolution of the Municipal Council may kindly be obtained so that the work may be proceeded with as it is reported that the delay in completing the Road and Drainage works has caused much inconvenience to the residents of the locality

I have the honour to be,
Sir,
Your most obedient servant,

Municipal Commissioner

Forwarded with compliments

Honorary President 9/e 9/8

Municipal Commissioner.

Copy of report No 238/47-48 dated 10th May 1948 from the Municipal Executive Engineer to the Municipal Commissioner, Bangalore City

---

Representation of Mr N Subbiah, Contractor, for the formation of roads and drains in Swimming Pool layout Malleswaram, 9th Division, Bangalore City

---

An estimate for Rs 36,277/- for the above work was sanctioned by Govt in L 7114-16/M1 47-40-86 dated 5th April 41 Tenders for the same were called for and that of Mr N Subbiah was approved for Rs 69,091/- being the lowest in Government Order No L 5455-7/M1 10-46-51 dated 2nd November 1946 The was put on hand as usual and is in progress

The contractor has now represented for enhanced rates on the plea that his tender was accepted after a period of 11 months by which time the rates for certain items rose very high.

Under the above circumstances and since the rate for burnt stone slabs seems to be too low when compared with the prevailing in this Division, enhanced rates for burnt stone slabs are, now proposed

The total area of burnt stone slabs required for the entire work is 60,150 sq feet The estimate rate for this item of work as per rates current in 1939-40 (prewar) is as 0-3-3 per sq foot and the rate tendered by the Contractor is as 0-5-0 per sq foot whereas the present rate as per sanctioned schedule of 1947-48 is as 0-7-0 per sq. foot with a Divisional percentage of 69½%

I therefore recommend a rate of as 0-7-0 per sq. foot without the divisional percentage so that the contractor may be able to complete the works which have been dragging on for a long time The delay in completing the road and drainage works has caused much inconvenience to the residents who have been repeatedly complaining

---
